

Date 23/2/15

Venue-Chinese Garden restaurant, Gympie Road, Kedron

Hares-Snappy Tom, Hoof.

A large group of hash Chinese food lovers gathered at the rear carpark of another of Snappy's relatives restaurants. It was obvious that the food would be cheap as their power bill was heavily subsidized by the next door property-a wire had been connected from a humungous neon sign next door to the restaurants power supply-so when the dimsums were fryin, they were really fryin!!!! From about 40000 volts!!!!

Fourex managed to get the pack in some sort of circle and got the hares to explain the run. Snappy might have well spoken in Chinese as he explained the walkers run and the runners run-don't think anyone got it! Tinker shot off leading the runners with Peewee, Screw, Optus following. Up Gympie Road and left into Tenth Avenue-a bit of a long haul to the first regroup with runners stretched out-a short run to the Kedron Brook creek bikeway and some perving at the lovely mummies doing their late afternoon strolls-Scruffy tried a line on one of them which of course failed!

It was then left around the football ground and onto Shaw Road before we exited off to a park where a female fitness trainer was packing up her gear after a session-Craft decided he would try out some of the gear but it wasn't a good look. Catgut tried looking for Hoof's hat which he left at one of the regroups and used it as an excuse the chat up the lovely fitness trainer!

Still no walkers -we were meant to collide here.

Runners were down to 15 as we headed off to the third regroup and Hoof's hat. Vaso and Anchovy and Multiple were nowhere to be seen at RG number 3 -shortcutters!

A quick sprint home and still no walkers and no beer! 35 minute run!

It wasn't too long before Fnut arrived and the beer was supplied.

Fourex got the circle together and Screw, the Indian monk got the nominations going. Scruffy for abandoning his fellow Queenslanders as an SES volunteer and having fun at a hash run, JC for doing the same and abandoning his marine rescue duties to sample Snappys chinese, Snap for organising drinks on Friday night and not turning up AGAIN, and finally Pushup for selling his furniture on Ebay, not putting a price on and having to reimburse a West Australian customer for his travel costs to pick up what he thought was FREE furniture.

Pushup got SOTW handsdown!

Can't comment on Chinese food as a group of hashmen including Scribe ventured to the celebrious Edinburgh Castle Hotel for a beer.

Run score-7 (bit short)

Circle -8

Onon-pass
