Run No. 2369 "Sold The House Run"

Hares = **Radar & Verbal Diarrhoea**

Venue = Mt Gravatt Hotel, 1315 Logan Road, Mt Gravatt

It was about 5:30pm when **Craft** & I arrived at the venue. **XXXX**, **JC**, **VD** and **Tweety** arrived shortly later. The night was dark and cold, with a bloody freezing wind (the "Arctic Blast"). Conversation turned to **Sir Kimbies** recent failed outing to the Birdsville big bash with Jimmy Barnes (does he have a hash name?) – after spending \$\$\$'s on tickets, driving all the way out west, sitting in queue for hours, and getting to within a few cars of entering, **Kimbies** suddenly turned around and went home.....??

About 30 hashmen had arrived by the time Grand Master **XXXX** called the hares into the circle. Apparently it wasn't the run that **Radar** wanted to set, but there was ONE hill. We all reckoned that would be the big bastard just up the road.

So off the runners went, to the first of many hills, up the rather steep "High Street" to a two way and then a 360 on Mountain Street. Yours truly immediately sprinted off into the bush and up Mt Gravatt Mountain, only to find that the trail actually led downhill via a laneway to Shire Road and across Logan Road. Somewhere we turned up a path that led amongst the walkers, up a freakin bastard of a hill for about three blocks, past Radar's recently sold house, until we hit a "Check Back" at Hawkwood Street. From here, **Optus**, **JC** and I looped around Greenfell, Clausen and Invermore Streets (the latter up another farkin long hill), to an impromptu regroup on Panorama Place. **Grewsome** joined us shortly later, then **Multiple Choice & Little Arse Play** arrived via a short-cut up Bakewell Street. We waited, but no sign of any of the other runners.

With only six runners left, the trail led up some rock steps, into the bush behind the crematorium for around a kilometre, before popping out at a Re-Group on the corner of Nursery & David Rds. We got badly caught out by a couple of CB's near Skidmark's old house, before running down Oates Avenue and Cape Street. Another 360°, before we eventually found the way home via Nursery and Logan Roads. Some ten minutes later, and the rest of the missing runners, including **Bugs** and **Royal Screw**, appeared. See route and profile from **Optus'** GPS, below.

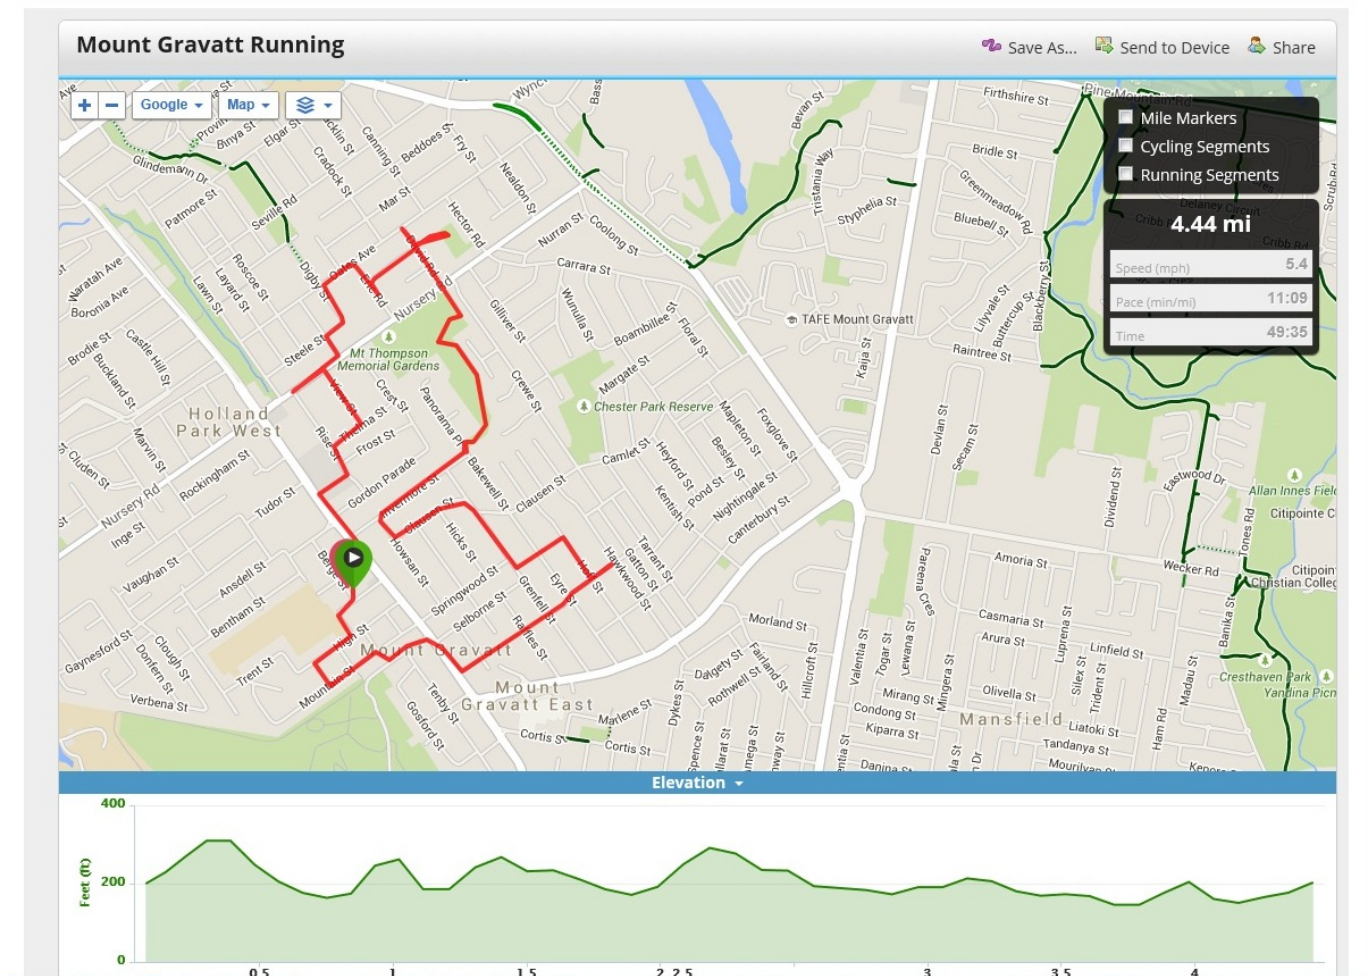

**XXXX** formed the circle, and called forth the hares. **Radar** complained that, after his last run, it was the first time he hadn't been iced after haring a run. This run was also adjudged a good run, despite **Royal Screw** stepping forth to display his bleeding arm, after taking a tumble in the bush section. **Radar & Verbal** got down downs

**XXXX** had a couple of quick announcements, including the upcoming Black Tie Event on 17<sup>th</sup> October at the Regatta Hotel, and next week's Xmas in July joint run with the Harriettes at Tarragindi Bowls Club. The latter required upfront payment from the hash club to secure the venue, so everyone is encouraged to show up and pay for meals yer bastards (or else **XXXX** will be sad?!).

Monk **Swami Screw** dragged forth several miscreants for special treatment as follows:

- **Farcknutti** – having s3x instead of going on bike ride with his mates
- **LAP** – allegedly got a new woman into the sack, but made a grab straight for the box, instead of initially visiting the upstairs titty region for foreplay, then a knock at door – and it's the women's two daughters. **LAP** forced to make a quick exit.
- **Luftwaffe** – more failures in trying to pick up women
- **VD** – telling everyone how to let down their tyres so they wouldn't get a flat on recent Birdsville trip, but forgot to do his own and got a flat.

By popular vote, **LAP** was SOTW.

The food was inside the Mt Gravatt Hotel, with **Radar's** special meal deal of buying two meals and get the second meal for only \$8.

Run 9 / 10 (Top run, but not enough hills??)

Circle 8 / 10 (A quick circle with no icings, due to freezing weather)

Food 9 / 10 (1 point deducted for forgetting to put the bacon on **Tweety's** Mixed Grill)

On on  
**Tinkerbell**
