

## Run Report - #2410

**The Anzacs Run**  
**Bracken Ridge Tavern**  
**Hares: Craft & Tinkerbell**

Arriving just before start time and there were only 16 including the hares. Either Bracken Ridge was too far or many were still recovering from the early morning Anzac march. After a few words from the hares, the 5 runners set off only to have Scruffy and XXXX shortcut after 400 metres at a gully crossing – come on Scruffy, man up, the water was only 2cm deep.

This left just **Turbo, Bugs & Even Optus** to complete the run with Tinkerbell following and calling us onto trail if we took too long at a check or trying to lead us onto the CBs. The trail went under the motorway and through the Sandgate wetlands bush before crossing back over the freeway near Deagon racecourse and home just behind the walkers.

General consensus was that it was a well set run & walk trail through good territory, although Snappy Tom and Little Arseplay still managed to get lost and get in 20 minutes after the rest. The circle was predictably quiet with the small numbers and no monk. The up side was that there were 2 beers for everyone. There was some attempt at nominations from the floor with Hashcash Scruffy nominating the honourable GM Shitbags – whatever happened to loyalty and committee solidarity.

Craft had organised a 2 for 1 meal deal with one catch, we just had to wait 10 days for membership to be confirmed.

A good venue and running territory.

Worth another visit with a few more runners.

on on
