

## **Run Report - #2421**

### **Kenmore Hotel**

#### **Hares: Kreepy Krawly**

No free meals from Barebum tonight so it was a much smaller pack for another Kenmore run. After a minimum of instructions Kreepy Krawly sent us off to play with traffic in Moggill Road.

A first regroup after 900m, a second at 2k. Only action was a 50cm grass snake seemingly stuck in the middle of the road at the RG. None of the Aussie natives would touch it and it was left to Royal Screw to help it to safety. Meanwhile there was a 3 way collision as Brengun arriving at the back of the pack almost trod on the snake as he was perving on some good looking runner while Tightnut was checking out the snake and almost collided with both as he set off again.

The run crossed Marshall lane, went through Kenmore South School, Aberfoyle St, back down Marshall lane and home in 4.5k and 25 mins. Well marked with checks but Kreepy definitely doesn't want to risk getting iced for too long a run.

There was no monk but a few nominations from the floor. Only decision to make was which offence Pushup got the SOTW for – being too old along with ST & LaP to gain entry to a bar in town or for Royal Screw being woken up by late night phone calls in Iceland after Pushup lost his dog.

Better stop now or the run report will be longer than the run.
