

**Run # 2432 LONE WOLF RUN**  
**26 SEP 2016**  
**Hares ROYAL SCREW and JC**  
**Toowong Bowls Club, Heroes Rd.**

Quite a big turn-out for this 'central' run site. Preliminary chats, among others, included the observation that the Bowls club was actually shut, and was not to open tonight. These were interrupted by the GM wanting to get us mobile. He had his way after a bit of noisy resistance, and introduced the hares for run briefing from JC, with a notable reference; "You will need a torch" that was met with the response "Yeah to get into the Bowls Club!"

The Hares set us off across Perrin Ck, and beside the shed that was to become the on home site tonight. On our departure the Hares must have stepped up to organise a very short notice standard hash fare for the on-on.

For the size of the total pack, there were a small number of runners. I teamed up with Little Arse Play, figuring I had a torch, and he had comprehensive local knowledge – turned out to be a successful partnership. We caught up with the FRT's waiting at the Moggil Road crossing. The trail went straight over the road and onto the path, through to Miskin St., in company with Scruffy for a while. Another off-road section for a bit, yes the torch was handy to have, then passing Toowong West Bowls Club on our left. Remaining adjacent to the creek, we were headed for the bush close by the Western Freeway. But there was a drink stop set up on the road and manned by Royal Screw. While enjoying a rum/coke glass, we observed the run pack streak back and head left after what must have been a long check.

We joined onto the tail again, encounter Craft for a bit, the stumbled along the wash-out track towards Anzac Park. Hey we're doing good! On better footing we went round the park driveway, past the dead parrot site, and out to face a big uphill alongside the bus depot.

A section of a long gap in trail marks convinced Little Arse Play to turn left down a very steep narrow foot path down into Warrawee St. Alas, no trail here, so back up we went and eventually found trail up near the top of Miskin St. That was followed by a nice long cruise down to a left turn into BBC. We followed trail across Moggil Rd again, and worked our way through to Josling St. We could hear the hash pack roaring with laughter from 100 metres away. We were home and soon enjoyed our cold beer reward.

The circle was good fun. Icy rewards were handed out to Tweety, Twin Tub, Anchovy, (standing in again two weeks in a row for hash monk), and Tinker Bell. Poor bugger was

mortified to be called a 'choir boy' by the GM in relation to the rude songs we heard at the joint run with Northside Hash last week. An observation by Vaselene, after he and Bullrushes went for an off trail walk to the R E pub; After a beer or two, Bullrushes said "Stuff it, I'm off home" (via the train / bus combo he used to get to Toowong). Hash Monk to note please. Even Monty and 'Whale returned for the On-On.

That was a good trail and drink-stop Royal Screw and JC, and a good recovery from the shut up Bowls club. Well done.
