

Run Report 31st October 2016 from the Paddo Tavern

After **Virgin** opting out of writing the run (Walk) report for the **Paddo Tavern run**, **Layup** was dropped into the job to write the walk report.

So at the **Gold Coast Hash run** on 7th November, **Layup** was reminded he was supposed to have written the walk report. Now if it was due to **alzheimers Layup** has below tried to recall the walk. This was mentally difficult after one week and a further Hash run on the 7th November.

Layup cannot recall every street however to begin comentry, the course had **hills and more hills**. Not able to remember exactly every street, this is approximatley the walk description.

The walkers headed up **Given Terrace** and turned right down **Martha Street**. From there it was down **Charlotte Street** then via a mix of **Paddinbton streets** incorporation significant hills, ending up going up **Pitt street** (Brisbanes steepes street) to **Enoggera Terrace**.

It was then along **Enoggera Terrace** to meet **Latrobe Terrace** before plunging down into furter hill territory **Alma street**. From there it was more hills down to **Fernberg road** and up **Heussler street** before a detour to **Naim Street** , **Isaac Street** and back into the Paddo Tavern via **Campbell Street** .

The circle was held in the usual carpark opposite on **Princess Street**.

Layup cannot remember **SOTW (alzheimers?)** but as usual the **Paddo** provided the usual steaks with salad, chips etc and high priced beer.

Walk, challenging due to Hills. 7

Circle, 7

Food the usual 8

On-On Layup
