

Run report chardons corner 9th January 2017

Hares: 4 xxxx

Visitor. Mister viagra and one other

So the esteemed Gm back in the driving seat welcomed the visitors and to much applause advised on the fees for the year. Embryo and fang seen disappearing as this was announced.

So off around the pub over Ipswich road and towards yeronga. Runners included a fit looking turbo and a surprise mover up the field being Irish and anchovy. Headed down near the train station with a check and informal regroup before continuing running parallel to the train line. Some intricate weaving between warehouses before doubling back up towards Moorooka. At the Ipswich road junction and the trail was still heading out to Beaudesert!! Does 4xxxx.

Understand that the body cannot handle this? Now down to core runners after dropping off vaso (real early) Irish (even earlier) and turbo (not sure). Eventually crossed road and up into towards Beaudesert road. This time scruffy and JC piked out and shorted cutted directly to the pub. Still no sign of regroups. Evan leading the pack in the absence of tinker bell. Craft moving steadily with anchovy improving by the minute. Bugs fell lame and dropped off the pace. Turbo back in the pack from somewhere. Eventually staggered to the circle at the back of the pub.

VolunTeers called to assist with setting the mud run. Bugs slow in the uptake and was last man standing luckily Boxa had already volunteered.

Reverend divot called out the miscreants:

New shoes meatiwshore.

JC for blowing up merc engine in a puddle of water. Unsure if insurance will cover and blamed miles for leading him into the ditch

Snappy for nothing that I can remember

Miles the clear winner for refusing to school up his cousin who owns a strip joint with a bar in the centre of Brisbane and getting subsidised drinks for the Friday thirst

Back to the pub and WELL DONE 4 xxxx for putting on free pizzas in the bar

Run 6 (needed more regroups)

Food 10

Circle always the best when the GM takes charge
