

Run Report Kalinga Park –Hares Shitbags, Anchovy

Well, the bar has been set high-with the best ever run report written by a wife of a hashman last week-well done Mrs Miles!!! We all know Miles can't type . Don't know how I can improve on that but here goes!

On arrival at Kalinga Park, was met by various degrees of Dad's army-namely Divot in ill fitting Sargents jacket and slouch hat, Colonel Clinkerbell with semi nazi uniform, Private Shitbags in full body suit, Ho Chi Irish dressed as the enemy who he said came first, Radar who looked like Radar (Mash).

The trail was attempted to be explained by Bags but lost everyone when he brought out a map which looked like the North Korean peninsular. It was on down the path along the creek (for a long way) and then over the creek and back up the creek. (a long way). Runners were fairly minimal saving Clinkerbell the duty of counting us. The trail wound around Kalinga and over the railway station and then a few hills(no hills?) . A regroup was sighted with General Boxa in charge where rum and cokes or milk were gulped down

We then headed back to the bike track along Kedron Brook-it was here that Clinker took the bait and tried to cross the creek –despite warnings that the creek was a little fast, Clinker persisted but unfortunately did not make it and was forced to retreat, a little wet.

From there , Optus, Clinker and Scribe followed by Craft and XXXX headed home to an array of sausages and onions-the usual hash barbeque.

It was here that Boxa and Tub presented a stirring Anzac service-Boxa read an piece “We shall remember them” while Tub read a Navy version-well done boys.

This was followed by a rendition of “bless em all” by Divot-it brought the house down –well done Divot!

Despite a number of nominations for SOTW including one by Handjob on Vaso, but Handjobs nomination backfired and it was he who got Shit of the Week for chatting up his big boobed sister in law at the Albion Hotel in a private bar!

A good night –well done hares
