Run No 2478 "Mas o Menos" Run

Hare - **BOXA (sans dogs)**

Things are getting tough with the Walkers being asked to do the "run" report. This is the first report since Run No 2472. ICE for those lazy pricks who couldn't be bothered to write the last five reports.

The Email traffic for **Boxa's** run started to flow with a f**k up and a change of venue with explicit instructions about the location of the circle, parking and the restaurant.

It must have worked because the **GM, Divot and Brengun** not only turned up on time but on the right date.

Applying military strategy Boxa set out to claim run of the year. On a positive note and as a solo hare he set and marked both a run and a walk which joined and separated throughout the run. For the much more important negative note, see later.

The on time GM called the pack to order, introduced the visitor, **Pigpen** from Geelong. Bit of a strange one, **Pigpen**, he doesn't support his local football team and immediately de-dacked and sat on the ice, without invitation, when brought out for his visitor's down down. However, I am reliably advised that he "out bugled" our Hash Horn - **JC**

The run and walk set off beside Hawthorne Park where **Luftwaffe** and **Multiple Choice** were noted perving at young female sportspersons. The runners did an extra lap of the oval and caught up later. Combining the run and walk meant the walkers were caught on checkbacks normally reserved for the runners.

The trail proceeded past the multi-million dollar houses of Bulimba slowly climbing to the drink stop at Suvla St. Boxa had advised all to make it to the drink stop as he had a brew of Sangria, consistent with the Spanish theme of the run.

This is where **Boxa** missed out on a possible run of the year award, Only about 10% of the pack got to the drinkstop. The trail went along Tugulawa St, Fifth Av and across to Olive Grove and was supposed to go right into Byrne Parade to the drinkstop on Suvla St. The problem was due to the arrow up Byrne St being indistinct and close to the arrow coming down the other side of Byrne St, the majority missed Byrne St and the drinkstop.

On arrival at the circle our glorious GM, bless the ground he walks upon, again called the pack to order and called for comments on the run whilst lamenting missing the drinkstop.

Scribe was able to partake of the sangria back at the car pack as **Boxa** had so much left over. Probably gave it to his dogs later on.

The usual miscreants presented their arses to the ice – **Irish Joke** for cooking the bum out of a cooking pot ably assisted by the newly crowned Asian chef – **Snappy Tom**.

Luftwaffe continued **Multiple Choice's** annual tale of getting pissed with his mates at the Broncos game (at least they won) and retiring to houses of ill repute.

The **Luftwaffe** clan really ganged up on poor old **Multiple** as **Lufty's** daughter sprung **Multiple** having a ??? dance. What was she doing there? Reckon you could have sold tickets to the Sunday morning breakfast in the **Multiple** household.

Run Score

Run – good trail markings for runners and walkers	9/10
Less poor trail marking to the drinkstop	<u>3/10</u>
Score	<u>6/10</u>
Circle	7/10
Food – good Paella and Spanish Beer	8/10
