

Brisbane Hash House Harriers

Run number : 2478

Date : 14/8/2017

Venue : Ole Tapas, Hawthorne Rd, Hawthorne

Objective / Aim

Nine elite athletes to run a 6.2 km course, following chalk markings without incident and in the fastest possible time.

Apparatus

9 elite athletes in their prime of life

18 running shoes (9 left and 9 right)

Limited chalk

Energy boost and steroid drink

Discussion

Major Boxer from Elite Hash House Harriers Corps set the course through Hawthorne and surrounding suburbs. Limited chalk marked the route, check backs and a single Re-group with a steroid replenishment station. Boxer warned the athletes of a particularly steep sand incline and suggested everyone slide on their asses "or they will get injured and he would laugh at them". Severe punishment from major Boxer.

At precisely 18 hr 15 minutes the elite athlete set off on the marked trail from Ole Tapas. Within 200 metres the cunning course setting took its toll. Two elite athletes (Royal Screw and Tinkerbelle) were diverted from the pack. The strategy of divide and conquer was working. Tinkerbelle cheated and followed the walker markers, took a short cut and waited at the re-group for the rest of the athletes.

Royal Screw (true to his English heritage) did the right thing and followed the runners trail but never managing to catch the main group.

The buglers of the main group (Pig Pen and J C) sent out repeated location signals to no avail. Both were considered AWOL or missing in action.

Results

Royal Screw arrived at the circle 10 minutes after the rest of the pack, looking royally screwed.

After having short cut the route Tinkerbelle joined the main group at the steroid refreshment station. The HHH Engineering Core being let down by their representative.

The elite group arrived back at the circle after a pleasant run of 45 minutes.

Pig Pen welcomed to the group after a successful first run. His bugling skills noted for future expeditions.

All 7 athletes from the main group scurried down the dangerous incline without an ass touching the ground. What is happening to the Australian HHH Offices Corps??

Conclusion

If this was a Kim Jong-Un mission it would have failed. The war head would have separated from the rocket and arrived late.

Meal and drinks	Good at 9/10
Run	Good at 8/10
Run markings	Average at 6/10 (decreased by Tinkerbelle and Screw)
Circle	Good at 8/10
