

Run Report Whites Hill –Hare VD

Arrived to see a Hashmen standing around watching a funny looking minimonocycle being test driven around the carpark by a mate of Donkeys. He encouraged the earlycoming Hashmen to have a go at riding this battery driven silly cycle-it looked a bit dangerous so most declined . When Layup turned up, of course, we all said we had had our turn and it was his turn. So off Layup went (pharque!)and to our surprise, no mishaps-however, it was though best not to have all the Hash riding this thing and it was put away-.

A good crowd gathered for this run and after another Shitbags announcement in lieu of GM Screw, we set off for a shortened run through the hills . The runners numbered about 9 with the young guns, Splatt and BFC, streaking to the front while the old farts like Bugs, JC, Optus, were still waiting for the WD 40 to kick in on their knees and hips before picking up the pace. A short 4 k run saw us back pretty quick after passing the walkers enroute and a sprint downhill to the finish.

The circle saw a number of nominations-however the SOTW went to Optus for rigging nearest the pins prizes in the Hash Golf tournament up the Sunshine Coast last weekend. He even outpointed Lufty after a splendid dobin speech by his mate, Multiple.

The Onon organised by VD was exceptional –free beer of various types and fresh fresh prawns and plenty of them (Irish, be warned –make sure you wear your wetsuit shorts next week for your misdemeanour of throwing your prawn shells all over the grass-shame!).
