

RUN REPORT

Run Number: 2528

Name: Kreepy's Pub Krawl Run

Location: Jindalee Hotel

Hare: Kreepy Krawler

There is some misunderstanding about who should be writing this run report. The GM pointed to me and said "TINKERBELL you do the run report". We cannot be confused because TINKERBEL is that skinny, FOB, winner of the Fiji red dress run and ball breaker, tea shirt collecting, non-finisher where as I strike that more gentlemanly portly figure, never run checks and do the walks at a saunter.

Far be it for me to cast dispersions on the GM's mental health but a number of members have noticed that he appears to be slowly going senile and are patiently waiting for the men in white coats to come and take him away Ha Ha.

This is KREEPY's annual run from the Jindalee Hotel. The pack assembled with MILES O'TOOL looking fit these days, there were the usual mutterings about the traffic but the Clayfield Click had no issues as Perfect Pete spent the \$5.00 and used the Legacy Way Tunnel. BUGS was absent, probably still trying to get there.

The run set off and I can recall a bunch of runners passing me including LITTLE ARSEPLAY, TINKERBELL, XXXX, SCRUFFY, CRAFT, HYDROLIC, OPTUS, MILES O'TOOL and MULTIPLE. MONTY headed for the short walk while the rest crossed the road past the Thai restaurant into Windermere Estate.

After about 10 min the walkers and runners split, with the walkers left to fend for themselves with no marked trail. A select group of supreme athletes decided to do a loop around the lake so as to comply with RADAR's specified 5km requirement. FINGERS was leading with the aid of his smart phone's GPS App, while DIVOT was explaining the medium-term effects of the tightening Australia monetary policy on SEQ real estate pricing. BBUM was just back from overseas or about to go again I can't remember which? About half way round we ran into LEECH and another lost soul and promptly lost them again.

Back at the Circle the runners reported that the run trail was a good one which raised some questions about who KREEPY got to set the trail??

The Monk PUSH UP showed up in business attire with nothing, but was helped out by accusations from the floor. We found out that MULTIPLE is going to try for a Brisbane City Council Bus Drivers job so that is likely to rule that mode of transport out for the rest of us. SCRUFFY was the popular choice for SOTW.
