

Run Number 2538 15/10/18
Southside Sports Club,
Mt Gravatt/Capalaba Road.

Hares VERBAL and SCRUFFY

About 20 starters turned up at the new club in the rain and congregated under an awning for the usual pre run bullshit. The topic of discussion tended to concentrate on the viability of the overhead roof line which was straining under the weight of water. A number of wet spots and leaks were evident in the ceiling. ROYAL SCREW denied having any involvement in its recent construction and whether the building is the subject of demolition orders.

I noticed a number of Hashmen, notably MORTEIN, JC, FINGERS and TWEETY were carrying umbrellas - definitely not pure and not allowed in the constitution.

Four runners started the run - TINKERBELL, CRAFT, XXXX and myself. We were well led by TINKERBELL who obviously has nocturnal traits and some owl blood in him as he was able to follow the trail which had been well marked but was partly obliterated by the rain. I'm bugged if I know where we went but we did pass through Upper Mt Gravatt and Wishart before crossing Mt Gravatt/Capalaba Road and then heading west crossing Newnham Road and then heading back to Mt Gravatt/Capalaba Road and then home.

There was no sign of the walkers who had abandoned the circle and adjourned to the bar. This year's committee (probably the worst in the history of Hash) decided to have their annual meeting leaving a few Hashmen to drink on their own. Most decided to leave the building prematurely because of the leaking ceilings and soggy carpets.

I can give the Hares 8 points for their effort in the conditions.
