

Walk 2540 Non Vego Run Breakfast Creek Hotel Hare: Meatlover

The scribe arrived shortly before the start to find no GM in attendance which was a bit concerning as we always miss him. My polite comment regarding his absence was taken by some to be a criticism however I understand the GM was in fact present and unseen nearby putting on his shoes. He advised me on the trail that he had no problem with my comments as he knew I had genuine concerns that he might not make it.

On the walkers trail we were led a merry dance as the live hare managed to just keep ahead of the rabid pack trailing behind. He found Bowen hill to the disgust of many with the trail finishing along the scenic Brisbane River. A few questionable dry drink stops were included. Not sure why this didn't result in an icing for the hare.

A good walkers trail considering the weather. Not sure about the runners trail but then when you are a walker who cares, as long as the runners don't get back before the walkers.

Lufty called the circle together and promptly place the scribe on the ice with little explanation. Thank god there were true miscreants that Divot managed to quickly replace me with including Snappy who continues to create havoc during the week leading to him again securing the SOTW

Walk: 8/10 Good effort considering the damp conditions

Food: don't know/don't care

Circle: 7/10

On On
