

Run Report Morningside Panthers AFL club-Run no 2536

Hare Boxa 1 October 2018

Arrived at the run to find another depleted number of runners due to the overseas travellers still way and also a slightly unamused hare Boxa who had learnt that the bar was not open on Queens Birthday. Boxa was called up by the Gm to give us a Plan B-"no Probs gents _ I used to be in the army and we had these sort of problems all the time!". The only person not paying attention was Miles who was seen knocking on the door of the Club to see if they were interested in giving him, the former Best and Fairest in 1903, a guernsey for their next game-needless to say they declined Miles generous offer. "you don't have to pay me!", he was heard shouting

So Boxa promised beer provided as soon as we got back.

A few runners (about 6) took off while the walkers headed towards the river-due to some missing markings the walkers split up several times and were back before the runners.

Around the back of the club, Boxa had delivered and produced an array of beers and good tucker-who needs a Clubhouse?

Can't remember the nominees for SOTYW apart from poor VD who was blamed for being part of the reason Embryo joined our flock. However Snappy won hands down-he seems to like the shirt now.

A Good night.
