

Monday night Brisbane Hash run report
Octoberfest run 23/9/2019

“WELL I’LL BE”.

Thankyou Grand Master for the opportunity to report in. (fuck-caught again)
This is the second time this year (and in 40 years) to have the honour the do this report and that is on your watch. Vaso will get jealous!

Thankyou Divot for a great barbi and Virgin for your audit of a very good run.
It is unfortunate that everybody (the largest hash gathering this year/ thanks to anchovies record keeping), missed the very first set of arrows.
But there were 4 intelligent hashmen who were able to interpret the real sociology for what would have been A GREAT RUN, and went the distance.

What the fuck, were the rest of you thinking?
Have your ages restricted your abilities to think through the possibilities of an intelligent hash run?
20 years ago you all would have all nailed that run. Think about it.
It is obvious, I need to understand, there is a new age Brisbane Men’s Hash theory needed for planning and settings of monday night men hash runs. It appears everybody (with the exception of 4 hashers), need more share time at run starts to discuss health issues rather than comparing notes on who got laid over the weekend and finding initial run arrows.
And of course ‘concentration and purpose of a hash run’ has gone out of the window.

Here are Meteor’s “PRE RUN’ notes.
Welcome to Brisbane Hash House Harriers Run number 2587
Your director for this weeks run is Divot.
Divot’s walk instructions for this run are:
1: There were to be no hills. 2: There were to be no stairs
3: The run area was to have phone coverage to allow for White Ant, in the event of him feeling needy, he could make a phone call.

Walkers who find themselves on a hill or climbing stairs, may I suggest to you that you are off trail. Divot designated the walk master to be Verbal ^{Diarhoea}

For the runners, the running trail crosses the walking trail 5 times. If you cross a walkers trail a sixth time you maybe off trail and will need to refer to Divot.

For this run Divot request you may need your;
1: go card, to short cut home. Maybe
2: a credit card, there is a girlie bar on trail. Maybe
3: some cash because all trails lead to Rome arriving at 7:04, to pickup Twin Tub and gang and be back at the circle at 7:14. Maybe.
Divot designated Scruffy as the run master

The third group will be the pub group. Divot designated pub master to be Twin Tub

Alert: If you find yourself in a wheat paddock, in the dark, with no moon, disorientated with no bar insight so you can take a bearing, look for a light in the distance and trust Divot.

While on trail please respect the person or people who are sleeping rough. You don’t want to be “SHAT “on or have “BRICKS” thrown at you. It maybe a “Waste OF Time”
