

RUN 2608
NOT THE BACKPACKERS RUN
MILTON PARK
HARES - IRISH JOKE AND F'NUT
10 FEBRUARY 2020

A bloody big storm was brewing as about 30 hashmen gathered under a stand in Milton Park. Great location for me as only five minutes from where I live. Even better for MORTEIN as only two minutes from his abode. So top marks to the hares for picking a great location for the run - more about that later.

At 6.15 pm as the GM is about to send the pack off the sky fills with lightning and a few spots of rain start to appear. So the pack (both runners and the walking dead) head off and on to Eagle Terrace. After a few twists and turns we are on to Milton Road - en route we pass the restaurant which has been the site of many over 60s lunches over the years. Great memories!!! At this stage the runners, which are led by EVEN OPTUS, disappear into the lightning and thunder.

About this time the rain starts to piss down. Luckily I was walking with GREWSOME who offered me SOME of his umbrella. Who says the Scottish are pricks!!!

The walkers head back towards the Wesley Hospital via the railway line where we find RADAR walking around in circles trying to find the trail. Nothing new about that!!!!

We found the trail which led us down one of the railway tunnels and back on to Eagle Terrace. As the rain was pissing down at this stage Divot took the decision to abandon the walk and head home. We all followed like sheep.

So we repaired back to Milton Park just beating the runners in. The run had taken the guys along the Coronation Drive walking track into the city. They ran into the City Hall and home via the Backpackers Inn in Roma Street.

The circle was a chaotic affair. The Monk had been celebrating the birth of a grand kid and had done zilch homework on trying to find dirt on anyone. PUSHUP and SCREW were voted SOTWs on some trumped up charge.

Highlight of the night was the magnificent fare served up by IRISH JOKE. Bangers served up in a fabulous tomato and onion sauce. Well done IRISH.
