

Run Report Holmead Park, Mt Gravatt-Hares-Ron the Bomb, Virgin, Zapata -23/3/20.

Arrived to a small but enthusiastic group of 15 walkers and sole runner Pee Wee. Noticed XXXX sheepishly holding a bit of plasterboard in his hand although not listed as a hare and tried to make out he had nothing to do with setting the run in case it was a fuckup.

Ron the Bomb was nowhere to be seen.

Divot was wandering around with a pool cue enforcing the one and half metre social distancing rule while GM Verbal set the tribe off for the first run where there are now RULES! No touching, no kissing, no food etc etc.

The walk went a merry 5.6 k and was well set on bike paths and road-no toilet paper-those days are gone for a while.

Not hard to guess what all the conversation was about-wont go into that.

On arrival back, there was an immediate discussion about what to do in future-it is clear there are 2 camps on this-but the main thing is to make your own decision whether you go or not. Things are happening daily and Verbal will be making announcements as they happen. Guess we have to keep our sanity as well and try as much as possible to keep exercising and hopefully some sort of contact with precautions.

The onon, despite no food, was welcomed by the masses especially getting 2 beers - think I drank yours Snappy. There was no monk or assistant monk or choir master so Verbal managed to punch out the hash anthem in the quietest tone I have heard for a while.

All in all, a good walk (and run) and onon in the circumstances

Score 8

Onon

JC
