

RUN REPORT – 22/6/2020 – RUN 2615

Be warned:

One should not have an in-depth 'Hare denigrating' discussion with the G.M. on the run

Result: Nominated for the Run report for the night – Un-impressed!

But wait! ! Enthusiasm!– Ah! - A chance to show one's weighty & verbose communications skills – Let Me At It!

RUN 2625 It's Monday nite in the Suburbs! – Brisbane North Side!
2 weeks out from the BH3's COVID19 Hibernation!

I'm heading for the Run with trepidation! – as *Mr T Bell* is the Hare – It's Melrose Park in Woolloowin

With the warning from home ringing in my ears!

'Keep your Social Distancing & don't come home with a \$1300 COVID fine for overcrowding in the park!'

The end of the night report with BH3 under the tutorship of Verbal Diarrhoea where practicing Safe COVID Practices should 'Not Be A Problem'
A good start to *TinkerBells's* tribute to healthy Hashmen

The count - There were only 20 runners /'walking dead!' appearing for the run

I forgot to mention that Hashmen have only 20 digits to utilise when counting – so max.numbers of Hashmen for the night –m counted by the GM

The Pre-Run Briefing – was as usual 'Too much Information!' but – we now have the exposure to the blessing at the start of the run by the Himalayan Monk – '*Snappy*' utilising his little seated budda idol statue surrounded by incense clouds

There were heavy discussions on the comparison to our reincarnated of our grey old grandmother in a 'red sari'

But lets not dampen the enthusiasm of our monk with sarcastic criticism

Moving on from the briefing – at last! – the start of the run with the announcement 'Take A Torch!'

A instruction considered by a few but rejected & perhaps should have been a warning!

Typical of BH3 runs – the arrows started through the park - followed by arrows instructing off the pathway into the undergrowth, into the park and creek bank path totally ignored! –Divot calling On! On!

My group of Hashmen went across the pathway bridge – off trail early – down the opposite side of the creek and eventually found ourselves in the backyard of some poor local's household

Loud apologies to the owners & return back to the arrows off the pathway & 'you guessed it!' – splitting up the pack – one group across the park & one following *TinkerBell's* flour markings along the creek bed

The run was as usual a pack of Hashmen, grouped in small numbers, discussing the problems of the world and the ideal Hashmen solutions

Where the trail went –who knows!

At some stage we were trailing along brook rd, park rd, kent rd, back along Kedron Brook Parkway, through Kedron AFL Club fields & back to Roseleigh St & Melrose park

Can you imagine – 6 hashmen, 1 torch, climbing a steep rock escarpment bank, following a flour trail of droppings, remembering one of the group is *T Tub* , a 82 yr 'young' Hashman with double knee reconstructions climbing this escarpment

Dark Night!.- Aged Hashmen!. – Steep Escarpment! – Hare Stupidity!!

Perhaps NOT! - But only excellent use of trail topography!

Back at the circle – the hares saying = 'you should have seen the steep cliff to the side of the escarpment!'

Returning to the park gates - my hash group were subjected / or is it - accosted by a 'dickless hashman' – *Tinkerbell's* live-in tonight's chef directing us to the circle & the food
Is this a new COVID run arrangement for Hashmen?

Enough of this run description BS! RATINGS!

OVERALL for the Run – 8 out of 10

Food – 9 out of 10

Rating for the RUN 2625 - 8 ½

Well done ! TINKERBELL
