

## RUN REPORT from NORTHS DEVILS, Nundah 24 August 2020

As

- (a). there were no trailmasters at last weeks run and they had not provided someone else to do a write up and
- (b). the trail was totally wiped out through a torrential downpour only half an hour before the run was due to start,

it has not been possible to either give a run Report or score the Run and the Hares have kindly offered to reset the run at the next available date. Please read the Trash after then!

However, one memorable event of the night was the great food and service provided by the Norths Devils and there is not much fear that if they put on another turn like the other night, they will go bankrupt.

Imagine , having waiters to serve a bunch of mongrels like you mob?

On On,  
Barebum
