

Gay Hash run report

Hare Grewsome

Venue Everton Park Hotel

As is my usual these days I, only abandoned the car with minuets to spare .

In fact Royal Screw also was on time, but the Pack was eager to get out on to the hare,Grewsome's trail, so they were on their way early . An altercation with the GM Verbal D found me ordered to do the run report. First up I had a minor chat with Boxer the Magnificent Brew master ,who hadn't known of Brewery Hash ,that has been going for a year or two .They hash, Usually twenty five to thirtyish pissheads from various craft breweries every 3 months,. Unlike the Full Moon Hash that fizzled and died years ago.

The trail led past Woollies shopping centre and on to what looked like newish concrete as we crossed Trout's Road, I managed to zip past Twin Tubs and Zit who were worried that Dole Bludger wasn't at the run .Twin Tub mentioned that TISSUE former Hash Marathon and porn star has had both his knees reconstructed too. Maybe there can be separate branches of hash. . The Hippy Club , Fud Knee Club .Broken bone Club .. We've all got medical ailments these days. . In the gloom I caught up to Layup who was striding it out .He was bemoaning that hash was his social life now that he can't escape down south..Layup also missed the trail markings, nearly tripping over double arrows, trying to find trail..On on up through the Raven Street Parks minor hills. At this stage the pack of walkers were all together .The Rugby boyz, Shitbags, Perfect Pete, Mortien ,Handjob, Tweedy and Bare bum were scathing in their disgust at being robbed again by the referees in the Bledislow CUP ..The poor kiwis almost had their only win for the year. I then caught up to our resident Aussie Rues Fanatic F *nut (Now that Miles Otoile isn't at runs) and chatted about this weekend upcoming game etc.. By this time the Pack had started on the return loop, Pushup mentioned that he been all over SE Qld climbing many peaks and a few hills. We past Little Arse play with about a kilometre I go, some wit , probably Luftwaffe enquired ."Are you lost "? The walkers were out for 57 Mins and My Garmin said the walk was 5.50 Kilometres. The runners also converged at the finish at the same time, The hare was doing cartwheels, grinning like Cheshire cat." I'm the greatest "he sprouted "all the pack are back together and under the hour "That would soon change.

A quick Beer and circle was called by the GM and Farknut led the raucous choir.

The general consensus was that bit was a top little walk, well marked so the walkers didn't have to get out of gossip Mode. Tinkerbelle put his hand up to whinge about getting caught on at

least 4 or 5 check backs, that's what the hare plan to do. Scruffy also had a little cry as well as CRAFT..

A Very Bright Orange robed hash Monk Snappy Tom then grabbed centre stage, he tried vainly to excommunicate the GM for something frivolousThen it was noticed that the pack was missing two runners / walkers Where were Even Optus and Fourex ?? .

As most hashers are well aware It doesn't take much to distract the members and the circle was disbanded in disarray with Snappy holding his magic potion.

The mob then adjourned to the Everton Park Hotel for a beer and a feed. It was now 7-45 and Even Optus and Fourex were still missing .Tinkerbell had ordered a meal but decided to go and find them..Can't be that hard!! 8.00 And off he goes 8.10 Tinkerbell s meal is delivered 8-15 ,

the lost walkers finally emerge from the wilderness .Grewsome is then waving the run map around frantically .His dream of the perfect run has disappeared down the drain . Apparently these two broken down runners had decided to "Walk the RUN "which isn't very clever .If a run takes an hr ..one would think it would take 2hrs . So one missed arrow and all of ta sudden they were in Aspley looking at a REFERDEX trying to find their way home they were told tod to get an UBER.. Tinkerbell finally arrived back to eat his lonely cold meal as the pack wandered off home .

Most thinking..What the FFFF. There must be some ammunition for the monk here..

Walk * 9

Not on run so 8

Circle minus 100

Apres circle hilarity 9.5

On on Radar
