

RUN REPORT 2633

DIVOTS RETURN FROM THE DEAD, OKTOBERFEST RUN

As the appointed scribe is derelict in his duty I will write up the run report myself.

The run/walk was set in military precision by Boxa with the walk trail and the run trail intersecting with both the walkers and runners arriving back at the circle at 19.10 approx. with only the usual stragglers namely Lil Arseplay arriving a little late, well set Boxa.

The circle commenced on the banks of the beautiful Brisbane river on a balmy night our GM for life calling all to order and handing over to his most worshipful, the monk, Snappy Tom who after deliberation awarded the S O T W to Even Optus, I think?

The excellent bratwurst and pork sausages with sauerkraut and mustard were professionally cooked by none other than Meatiwhore, who said he couldn't cook!

Who called the cook a C@#t ? Who called the C@#t a cook ?

German bier was consumed along with the BH3 beer so Boxa made a profit on the extra cans.

All in all a fitting contender for "RUN OF THE YEAR" well 2020 any way.

Run 11/10

Circle 9/10 (the Monk had to compete with hungry Hashmen mobbing the cook)

On On 11/10 (perfect setting, perfect night no rain like past years)
