

Brisbane Hash House Harriers Run Report # 2647

1 February 2021 HARES: Handj0b & Vaso at Geebung RSL

Interesting location is Geebung. The large pack, over 30 fellows, assembled in the carpark across the street from the RSL. We were given the start after some tourist information and headed out onto Newman Rd into the shopping centre, the place to re-visit soon if you are into tattoos, op shops, sure to be legit massages, Asian / African groceries and take-aways.

On-On thru the 'burbs via Innes St till the exit to a creek side trail headed north crossing Robinson Rd ... passing the familiar Geebung Bowls Club, and soon came to a set of stormwater pipes crossing under the rail line, (no chooks encountered). A scramble out of the creek bed up onto a large expanse of playing fields, where a few comments re African sport / picnic events taking place round here kept us moving briskly along.

By now we were in Zillmere, and at the Zillmere Rd Library felt we were at the northern most point of the trail. On back into parkland the walking pack lost their "mind meld" attempting to find the correct crossing of the Waterholes Creek. A large group went further east, a small bunch walked on incorrectly and re-traced their path, and a lone fellow was off in another direction – but he must have got back OK eventually.

On home now heading south in the industrial area of Newman Rd with the Geebung Station overhead crossing making the only "hill" on the whole trail. (Sorry, runners if you did a hill or two elsewhere, but this is the walkers report.)

A cheerful noisy circle ensued with Snappy Tom at his sparking best handing out a sly grog to the unfortunates called into the circle.

The well attended dinner and drinks made a welcome financial contribution to the otherwise sparse support on the Monday evening.

Well done Hares, the big roll-up points to a high score event for you. A good circle, good catering topped off the night.

ONON!!
