

Run 2655 – April 5th 2021
Easter Bunny Run
Nudgee Beach Hotel, Nudgee
Hare: Bugs

It was yet another dark and stormy night and 16 intrepid hashmen obviously with nothing else to do braved the forecast of severe weather and trekked to the Nudgee Beach Hotel. XXXX drove all that way only to have a flat battery and go straight home after getting his car started. Not sure if he should be credited for a run.

Bugs had made several attempts to set a trail and if we were quick enough some of it might even still be there. The runners (Tickerbell & Craft) and walkers headed north around the Nudgee waterhole reserve through bush populated by thousands of toads, the only ones enjoying the weather. Fingers recorded all on his phone. At least the walkers were spared the snake on the runners trail. Up to the Catholic University and back to the pub in 3k. Boxa's dogs didn't even get out of the car.

There was no monk and no XXXX to stand in for SoTW nominees, so it was a quick circle before the mossies and rain took over. Seniors meals and easter eggs were popular inside and all except Boxa and Fingers had left by 8pm.
