

Run Report No 2662-Holland Park Hotel—hares—Inspector Rex, Peewee—May24

A small but enthusiastic gathered at the HPH carpark, also entertained by Boxer entering driving very slowly at 1kph followed by some irate tradie - Boxer had to find the absolute best carpark despite there being hundreds of spaces-the tradie patiently waited until Boxer then reversed park twice to get it just right-the unimpressed tradie then flattened it in disgust and disappeared.

Onto the run/walk now-Inspector Rex was very proud of his run/walk yet to be tested and it was a great walk-right distance and saw both sides of Logan Road. Craft was also impressed as he ran past Kawajas house on the hill with the painted cricket stumps on the wheely bin outside his house where he obviously practices. Trail was clearly marked and is a mystery why Multiple and Arseplay came in 20 minutes late. Bugs had a great run in reverse and was met by the walkers with a bewildered look on his face-somehow he found his way back.

The circle was without monk, Snappy but filled in by Tub with a quick joke-no SOTW so Multiple kept the jacket.

A ‘huge” raffle lay await for the onon crowd in anticipation of an improvement of quality of prizes. This was greatly appreciated by Pushup , the winner, who proudly showed off his 10 year old port to all and sundry, only of find at the end of the night , it had disappeared. Suspects are presently being investigated and the guilty one will be incarcerated by Inspector Rex- You still have time to come forth and your state of remorse will be taken into account.

A few lucky hashmen were the lucky recipients of Miles’s running t-shirts all freshly ironed of course.. Some good memorabilia.
