Run No 2692 No Kids, No Water Bombs, No free Food and No Free Beer Run

Hares – The Clayfield Car Pool led by Vaso

Location – Norths Leagues Club

The GM's alphabetical Run Report clock has ticked around to the M's and fill in GM Verbal duly anointed scribe for this week's Run Report. A gathering of 36 pre Xmas runners/walkers gathered at the Nundah mossie hole. Thankfully, Brewmaster Boxa relocated the circle location and the mossies' went hungry.

Verbal was keen to get the job over and done with and called the circle at 6:12:35. Hare Vaso had his annual moan about never getting a Run of the Year Award and would never provide free food, free beer, free water bombs for the use of Grandkids again. He handed out trail notes, with the threat of the severe punishment if the secret section was opened before the SECOND creek crossing, and the pack was on its way.

Hare Assistant Anchovies led the pack out across Creek 1, weaving through the Nundah cemetery passing interred Roush relatives and across the race bike track. Irish Joke was nearly run down as he had his head in his phone trying to find the nearest Bunnings for his daily pilgrimage.

Divot was on Monk duty and called various miscreants including Vaso, Irish Joke, Zit and the f\*ck twins Multiple and Luftwaffe. There must be some Xmas spirit in the air as the number of f\*cks was minimal and they both admitted their material was pretty piss poor. Shit of the week – dunno, forgotten already!

On in and after dire warnings regarding the new COVID rules we got into the Club – no mask, no checking for the green tick.
